

James Nderitu Karuri

Software Developer · Nairobi, Kenya
jamderitu@gmail.com · +254 705 171 545

PROFILE

Software developer with about seven years of experience across web, mobile, and systems administration work. I started out as a junior developer and have since worked my way into building full systems on my own, including a multibranch ERP and, more recently, a Flutter-based emergency roadside assistance app. My hands-on work spans Django, Laravel, CodeIgniter, React.js, Node.js, and Flutter. Alongside development work, I've taught web development, trained new hires, and mentored other developers coming up in the field.

WORK EXPERIENCE

Software Engineer · Nusuria Technologies

2026 – Present

- Building an emergency roadside assistance app connecting stranded drivers with nearby help.
- Working across the stack with Flutter on the mobile side and Node.js on the backend.

System Administrator · Topas Agrovet

2024 – 2026

- Built a multibranch ERP system used across the company's locations, covering sales, user management, and reporting.
- Added per-branch statistics dashboards so management could track performance without pulling manual reports.
- Handled day-to-day IT administration alongside development work.

System Administrator · Olanka Safaris

2022 – 2023

- Managed IT systems and infrastructure supporting daily operations.
- Handled troubleshooting and support requests across the business.

Web Developer · Global Desarts Media

2020 – 2021

- Integrated M-Pesa, credit card, and PayPal payment gateways into client web applications.
- Built software from scratch and modified existing systems for multiple clients.
- Mentored and trained new developers joining the team.
- Picked up client-handling and time-management skills that carried into later roles.

Computer Lab Technician · Nyandarua Institute of Science and Technology

2018 – 2020

- Taught web development and object-oriented programming to students.
- Mentored students interested in becoming web developers.
- Maintained the computer lab and repaired broken-down equipment.

SKILLS

Languages: PHP, JavaScript, Python, SQL, PostgreSQL, HTML, CSS

Frameworks: Laravel, CodeIgniter, Django, React.js, Next.js, Node.js, Flutter, Tailwind CSS, Bootstrap

Integrations: M-Pesa API, PayPal API, credit card gateways, REST APIs, GraphQL, SMS APIs, MySQL, PostgreSQL
